

Javed Butler

**Distinguished Professor of Medicine at the University of Mississippi Medical Center, Mississippi, USA**

Professor Javed Butler is renowned for his contributions to cardiovascular medicine, particularly in heart failure research. He holds the Maxwell A. and Gayle H. Clampitt Endowed Chair for research and is the Distinguished Professor of Medicine at the University of Mississippi. Before joining Baylor Scott & White Health, he served as the Patrick H. Lehan Chair in Cardiovascular Research, and Professor and Chairman of the Department of Medicine at the University of Mississippi, where he was also Professor of Physiology. Professor Butler has also held positions at the Heart Institute at Stony Brook University, and directed heart failure research at Emory University and the heart and heart-lung transplant programmes at Vanderbilt University. Professor Butler received his medical degree from Aga Khan University, followed by residency training at Yale. He completed cardiology, advanced heart failure and transplant fellowships at Vanderbilt University, as well as a cardiac imaging fellowship at Massachusetts General Hospital, Harvard Medical School. Additionally, he holds a Master of Public Health degree from Harvard University and a Master of Business Administration from Emory University. Professor Butler's research focuses on clinical trials for patients with heart failure. He is board-certified in cardiovascular medicine, advanced heart failure and transplant medicine. He also serves on several national committees for organisations including the American College of Cardiology (ACC), American Heart Association (AHA), National Institutes of Health and the Heart Failure Society of America. He has received the Simon Dack Award from the ACC and the Time, Feeling, and Focus Award from the AHA. Professor Butler has authored over 1,300 peer-reviewed publications and serves on the editorial board of several cardiovascular journals. He has been cited multiple times in America's Best Doctors list.
